### THE REQUIREMENT

To design, develop and manufacture a Led bulb, that imitates the colour and the luminous halo of a flame.  
To bring a lighting solution according to required technical specifications and lighting constraints of historic monuments.  
**ISSUE.**

- To design, develop and manufacture a Led bulb, that imitates the colour and the luminous halo of a flame.  
To bring a lighting solution according to required technical specifications and lighting constraints of historic monuments.  
To bring energy saving and a longer life to reduce the maintenance costs.

### THE SOLUTION

With its Research & Development Department, its production unit and its laboratory located in France, MINILAMPE is a recognized lamp manufacturer for more than 60 years.  
MINILAMPE designs, develops and manufactures specific lamps and brings its customers custom-made LED solutions in the context of the lighting systems' technological evolution.  
MINILAMPE has designed a LED bulb 240V that consumes only 1W with life 30 000 hrs.  
This Led bulb meets all the technical specifications required regarding energy saving, flame colour, shape and luminous halo imitation.

### THE RESULT

- MINILAMPE brings bespoke LED solutions, to replace historic lighting without changing the current installation and thus save energy and reduce maintenance costs.  
These custom-made solutions respect the existing architecture and do not alter our exceptional cultural world heritage.
